18TH YEAR—WHOLE NO. 5,335.

WOODWARD & LOTHROP.

Thousands of New Things.

We are in daily receipt of our Fall and Winter Stock, comprising all the Foreign and Domestic "Novelties" and Staples, which are being placed on sale at our popular low prices. We give below a part description of some of the new arrivals, and respectfully ask your examination of what we consider the best, newest and most fashionable stock ever our pleasure to display.

"Novelties" in Dress
Goods usually take first rank, and justly so, for this season they are simply superb. As more than a majority of these fabrics are in Boucle effects (Boucle pronounced Booclay), we give the following description of the goods:

Boucle is a French word, and means curled or knotted. The warp is of two threads, one forming the body of the goods, with the filling, and the other is of curly or knotted strands, which stand out from the surface in little woolly curls, giving the goods an all-over "nappy" effect. In some, colors are carefully interwoven, producing almost imperceptible, narrow stripes and little boucle. Some are more decided, and some are of the striped, forming a border which is used for the trimming.

"Another Novelty" is a Chenille-embroidered figure on a smooth surface, the figure being quite wide apart, and is a shading of two or more contrasting colors, producing a decidedly harmonious effect, and is considered quite *recherche*. These are in Combination Dress Patterns of 5 yds each.

Plain Cambric Hair Serge, with wide colored Boucle borders, in the prevailing fall shades and colors.

Fine Cashmere Cloth, with elegant chenille-embroidered set figures in shades of olive, in tulle, garnet, Havana, dress of wine, seal brown, and navy blue.

The beauty of the new goods this season lies in the fact that, seen at a distance of twenty yards, they pass for one color, while as high as three, four and five are woven therein, and only noticeable at close quarters.

New Black Goods "Novelties" will be displayed Tuesday morning, September 13, a full description of which will appear later, mean while we ask you to take a peep. Near a hundred pieces of different styles and weaves.

New arrivals in both Velvet and Silk Department. Have to be seen to be appreciated.

New Buttons—Unquestionably the largest variety and the best assortment ever our pleasure to display:

Buttons in Metal, Bone, Pearl, Cut Steel, Crochet, French Carved, Tallomade, Lasting, etc. in Flat, Ball, Half Ball, Steel Center, in different sizes, and in colors to match all the fashionable shades in dress materials. Black Buttons in dull jet, and Jet and Pressed Jet.

Plain and Fancy Black Crochet Buttons in different shapes.

Also a "Novelty" in Black Crochet Buttons, the surface being wrinkled, producing a craps effect.

Tailor-made Buttons, for the popular tailormade suits, in all the fashionable colors.

Pearl Oiled Buttons, in six popular shades.

Belts—All kinds of Belts at all kinds of prices.

Dress Shields—Fedra, Canfield, Oil Silk, Seamless Rubber Shields with satin lining at right prices.

New Flannels are here. The head of this department says of this stock:

"It is unquestionably the largest, best and most complete we have ever shown, and the prices are at the bottom."

The "Specialties" are yard wide shakers at 25, 35, 45, 55, 65, 75, 85, 95, and 100. An All-wool Scarf Twilled Flannel, which was sold last season at 25c, now is also a special at 25c.

New Ladies' Hosiery. We mention one item, viz:

Unbleached Balbriggan, extra size and extra large, superior quality, only 12 1/2c per pair.

New Scarfs for Men—We call attention to our elegant line of Men's "Claudent" Scarfs, in handsome patterns of dark, rich colorings and effects, for fall wear.

At 25c, 35c and 50c each.

Good as coming in much faster than we can possibly receive, and we are fully prepared to meet the public generally to pay a visit of inspection.

Our "Mail-Order" Department is at your service, and we shall be pleased to send you samples of goods upon request. Satisfaction or no sale.

GOVERNMENT GOSSIP.

Postmasters Appointed by the President To-day.

JUDGE HARLAN'S DEFENSE.

An Important Decision by Commissioner Sparks.

NEWS FROM ALASKA.

No Confirmation of Reported Cholera on the Oskipee.

A CROOKED POSTMASTER.

The Silver Purchase.—The Treasury has bought 250,000 ounces of silver for \$1,000,000 at New Orleans and Philadelphia.

The Value of the Dollar.—A calculation made at the Treasury shows that the standard-silver dollar is now only worth eighty cents and the value still depreciating.

A Treasury Promotion.—Mr. L. T. Towner, a stenographer employed in the mint bureau of the Treasury, has been transferred to the Secretary's office and promoted.

Against the Civil-Service Act.—A committee of the Labor League called upon the President to-day and submitted resolutions protesting against the enforcement of the Civil-Service law.

Santos' Claim for Damages.—Santos, the American citizen whose release from a prison in Ecuador was secured by the Secretary of State, will present a claim against the Ecuadorian authorities for \$100,000 for false arrest and imprisonment.

Fourth-Class Postmasters.—The Postmaster-General to-day appointed about one hundred postmasters of the fourth class, among them, E. S. Bobbitt, Mechanicsville, and W. L. Armstrong, Greenham, Md., and Joseph Palmer, Heathsville, Va.

Smallpox Reports.—The Marine Hospital Service authorities believe that the reports of smallpox in Montreal do not show the extent of the disease to be nearly so great as it really is. Smallpox is also increasing at Trieste, Venice, Bordeaux and Warsaw.

The President's Callers.—Among the President's callers to-day were: Senators Dolph and Call; Representatives La Follette, Sawyer, and Landon; Speaker Hahn of the Illinois Legislature; Major Campbell, Seventh Artillery; J. Kenyon and C. T. Hubbs of Brooklyn, Auditor Day.

Silver-Freighted Ships.—Mr. Muhlen of the Treasury's office, who superintended the loading of the Swatara and Yantic with silver dollars at New Orleans, returned by rail to-day. He says the cargoes were safely stored, and nothing short of a cyclone or a waterspout could cause accident or loss.

Lieut. Mason Re-enters the Navy.—The resignation of Lieutenant Thomas B. Mason of the navy has been tendered, and upon his return from the navy he was appointed to-day Secretary Whitney.

Alaskan Affairs.—Lieutenant Commander Nichols of the Platte reports to the Navy Department from Sitka, Alaska, that nearly all the settlements in Southeastern Alaska have been visited. The natives are at work collecting their winter stores, and appearances indicate peaceful and orderly times. The sale of rifles to the natives was not prohibited, as it did not seem likely to lead to any trouble. The first shipment of bullion has been made.

Presidential Postmasters.—The President to-day recommenced work among the postmasters of the United States, and made the following appointments: E. H. Thayer, Clinton, Iowa; Charles Poll, resigned; Henry Williams, Frederick, Md.; vice C. W. Miller, resigned; and J. H. Bowers, Clinton, Iowa. The latter was suspended because he was found to be short about \$2,000. This shortage was collected from his bondsmen.

Precautions Against Smallpox.—The Marine Hospital Bureau has issued a statement showing that steps taken to prevent the introduction of smallpox from Canada. Besides appointing inspectors for Michigan the Government is ready to appoint them for Maine, New Brunswick, Ontario, Massachusetts and Northern New York to board trains, etc., if request is made by the Governors of the States interested. The commanders of revenue cutters have been ordered to have their crews vaccinated and prepared for service in preventing the introduction of refugees infected with the disease.

Geological Survey Disbursements.—The report on the legality of the disbursements under the Geological Survey, which has been prepared for Auditor Charles Smith's information, is said to review minutely the legal enactments under which the disbursements have been made and to conclude that a large portion of the expenditures were entirely proper. The Auditor's report, however, is said to be one of the most closely settled States are objected to on legal grounds, as are surveys of mines and lands owned by private individuals, and work done outside the limits of the United States. It also sets forth that the payments have been in excess of the amount appropriated for the purpose.

The Whiskey Bonds.—A consignment of 1,000 barrels of whisky belonging to J. B. Thompson of Kentucky is held at Newport News, subject to a decision by Secretary Manning on a new question concerning transportation bonds. The seven months' bonds, which were issued by the Treasury, were to expire on September 15. It was decided, however, to let them run to New York. While the liquor was en route to New York it was seized on the ground that the seven months' bond would expire before it could be exported. The Secretary of the Treasury will decide whether the whisky can be taken to New York for shipment.

Judge Harlan's Defense.—The defense of the Alabama Claims Court expenditures, signed by Judge Harlan and concurred in by Judges French and Draper, has been submitted to the Attorney General by the Secretary of State. Judge Harlan denies any extravagance or unnecessary expenditures. Lawyer Crowell's services were of such character that he was fully entitled to the largest amount allowable under the law. Judge Harlan says the question as to the authority to employ necessary assistance has a great surprise for him. The duties of the court and the time in which they were to be completed were prescribed in a many-sided manner, and the force was so evidently insufficient that it was one conclusion that Congress contemplated without any additional force was found to be necessary. Judge Harlan closes by quoting a very recent decision of the Supreme Court of the United States, (Brown vs. United

A CLOSE CONTEST.

An Exciting Race Between the Genesta and Puritan.

THE LATER GAINS THE LEAD.

Half the Course Sailed and the Yachts Returning.

THE WIND NEARLY A GALE.

The "Cutler-Breeze" Seems Good Enough for the Sheep.

SANDY HOOK, N. J., Sept. 16.—At 9 o'clock this morning the wind was blowing thirteen knots an hour, north to northwest, and the indications were that it would continue brisk for some hours. It was the universal opinion that at last the attempt to sail the twenty-mile and return race would be successful. At 9:20 the Genesta was seen approaching the Hook under sail. The Puritan in tow passed out at the time to the starting point. At 10:30 the judges' boat ran up the American ensign as a signal for the yachts to get ready. Ten minutes later the blue Peter was hoisted, and the yachts were ordered to start. The Genesta was the first to start, and the Puritan was not far behind. At 11 o'clock the stakeboat started off east for its station. The wind had now increased to fifteen miles an hour, northwest.

THE START.

Everything being ready, the yachts were started. The Genesta slightly leading, her time being 11:00:01, that of the Puritan 11:03:30. The start was made from the lighted buoy, the yachts heading east-south-east.

As the yachts neared the line, both had their spinnaker hoisted in readiness. The start was a beautiful one. It was decided to make the course to the buoy, and after crossing the line, the Genesta led the Puritan. At 12:00 the Genesta was twenty-four miles west northwest, and the Puritan was twenty-five miles west northwest. At 12:05 the Genesta jibed over and set spinnaker on other side.

THE WIND FRESHENS.

The wind continued to freshen, and at 12:25 p. m. it was twenty-five miles an hour and squally. Both yachts were about the port tack, standing northeast. The Puritan still led the Genesta. Wind began to veer around to north. The Genesta at 1:05 was to windward of the Puritan and gaining on her. All the time there seemed to be no doubt that the Puritan had been crippled, but she left the Genesta on this tack. The wind meanwhile increased to thirty-six miles an hour. At 1:45 the Puritan had gained the lead.

At 2:20 the Puritan was about a mile ahead and had set her topsails. A very heavy sea was running off, and the Genesta was in a bad way. At 2:25 the yachts were about ten miles east of Sandy Hook lightship. The Puritan was leading, and the Genesta was following. At 2:30 the yachts were about ten miles east of Sandy Hook lightship.
